

During the Erasmus+ strategic partnership project “Community Guarantee” different realities and country contexts were met and analysed in order to create a functional profile of “Community Guarantee” – a document describing the concept of effective and multi-dimensional support service for youth not in employment, education or training. The intellectual output is an electronic publication describing efficient institutional profile for working with NEETs that is available for anyone willing to provide qualitative services for young people.

The project was funded under Erasmus+ programme of the European Union by the Archimedes Foundation Youth Agency in Estonia.
